Arnav Sood

October 2026

Ph.D. Student in Economics, Carnegie Mellon University

Personal

Email: arnavs@alumni.cmu.edu
Website: arnavsood.com
GitHub: arnavs
Citizenship: USA, Canada PR, India OCI

Interests

Statistical Learning, Computational Methods, Information, Game Theory, Behavioral

Computational Skills

Julia, Python/Torch, Snowflake/SQL, PyMC, Shell, SKL, Docker

Education

(In-Progress) Ph.D. Economics, Carnegie Mellon University *2021-2027*

Committee: James A. Best, Ali Shourideh, Maryam Saeedi, Aislinn Bohren (Penn)

M.S. Economics, Carnegie Mellon University 2021-2023

B.A. Mathematics, New York University 2014-2018

Dual-Enrolled Math Student, Princeton University 2013

Employment

PhD Data Scientist, Revelio Labs 2026-

Projects TBD

PhD Data Scientist (Summer Intern), Revelio Labs 2026

Designed, built, estimated, and distilled a flow-based seniority model over 16M+ transitions

Prior Experience (Pre-CMU) 2014–2020

Lead Developer, QuantEcon

Cowrote open-source Julia packages and managed lecture deployment/upgrades

Predoc (≈ Research Engineer), University of British Columbia

Worked on Julia solutions to stochastic DAE systems and neural methods for high-dimensional DP

Research Assistant to Laura Veldkamp

Theory and coding RA for various information economics/finance papers

Research Intern, Office of the Comptroller of the Currency

Dimension reduction for bank stress testing

Intern, Morgan Stanley

Wealth Management Intern for MSBNA

Treespace Math/Bio REU (NSF Grant #14-61094)

Testing conjectures about phylogenetic closure operations

Selected Grants and Awards

Best Student Paper, AETW 2026 — 2026
$500 NZD for *Frequentist Persuasion*

PNC Research Support Fund, PNC Center for Financial Services Innovation — 2025-2026
$4000 for *Frequentist Persuasion*

CMU GSA/Provost Funding (Travel and Research) — 2025-2026
$1250 for *Frequentist Persuasion*

William Larimer Mellon Fellowship, Carnegie Mellon — 2021-2026

Presidential Honors Scholar, New York University — 2014-2018

National Merit Scholarship Finalist — 2014

Software

`QuantEcon/Expectations.jl`: Quadrature operators for distributions.

`QuantEcon/InstantiateFromURL.jl`: Bind Jupyter notebooks to web-hosted dependency TOML.

Working Papers

Ebrahimi Kahou, M., Fernández-Villaverde, J., Perla, J., **Sood**, **A.** & Bloem-Reddy, B. *Exploiting Symmetry in High-Dimensional Dynamic Programming* Working Paper 28981 (National Bureau of Economic Research, July 2021). http://www.nber.org/papers/w28981.

Sood, **A.** & Best, J. *Frequentist Persuasion* 2025.

Works in Progress

Sood, A. *Socialized Learning*

Talks, Panels and Seminars

("ES" stands for Econometric Society)

2026: Australasian Economic Theory Workshop (U. AUCKLAND), ES Interdisciplinary Frontiers Econ/AI+ML Meeting (CORNELL), Stony Brook Game Theory Conference (STONY BROOK), ES North America Meeting (EMORY), Canadian Economics Association Annual Meeting (SIMON FRASER), ES Africa Meeting (HYBRID)

2024: SAET (U. CHILE), Theory Brown Bag (U. PITTSBURGH), Summer School in Economic Theory (poster, NORTHWESTERN — KELLOGG)

2023: Pennsylvania Economic Theory Conference (poster, PENN STATE)

2022: ASSA "What Can AI Do in Economics?" (VIRTUAL)

2020: JuliaCon (poster and talk, VIRTUAL)

Invited Activities

Summer Schools and Workshops: 2025 Asian School in Economic Theory (NYU ABU DHABI), 2023 DSE Deep Learning (U. LAUSANNE), DSE Empirical Market Design (MIT)

Teaching

FractalU	Computational and Behavioral Economics	2026
CMU (TA)	Economics of Information	2026
CMU	Principles of Micro	2024
CMU (TA)	MBA Statistics, Econ, Optimization Classes	2023-2024
CMU (TA)	PhD Metrics, Computation, Macro Courses	2022-2024

Other Activities

Volunter Official, US National Science Bowl

Volunteer Judge, US Presidential AI Challenge

Volunteer Tech Support, Free Geek Vancouver

Volunteer Teacher, Splash! (Various Universities)
